AM

Dual/Mono
AS4004

SYSTEM

OPERATING MANUAL

Contents

1. Product profile

Acutsto magnetic electronic anti-theft system referred to EAS system. Consisted of three main parts: the detection device, sensor tags, deactivator or detecter. AM anti-theft systems are single-bit radio frequency identification system, the metod of amplitude modulation is using keying (ASK) digital modulation, the modulated signals are coded binary signal, composed by the 0 and 1 single bit sequences. Frequency of carrier signal is 58KHZ, it is low frequency sinusoidal signal. The modulated signal is amplitude modulation ask signal with 100% factor. The basic working principle is to use an antenna to transmit an alternating magnetic field emitted between the transmit and receive antennas to form a sensitive area, using the principle of resonance of electromagnetic waves to search for a valid tag within the detection range (that are the tags which do not through the deactivator), when there is a valid tag, the system will alarm. and magnetic anti-theft system with detection rate is almost zero false positives, not the metal foil shielding, anti-interference ability, wide detection range and other characteristics. Now widely used in the retail stores, supermarkets, clothing boutiques and other places.

2. Product structure

2.1 AS4004 antenna

AS4004 antenna is a new intelligent am security system. set detection, computer processing, sound and light alarm in one, transmit, receive, send and receive one of the other mode selection, can be single, double and multi-branch combined installation. The main components are: frame antenna, transmitting and receiving antenna, power supply, transformers, main control board, the resonant radiation plate, the alarm light board, buzzer,etc.

1 -alarm board

2 -main control board
3 -resonance transmit board

4 -transformer

5 -power supply board

2.2 AS4004 mainboard

A-input port

B-output port

C-alarm buzzer port

D-alarm lamp port

E-remote control receive

F-nixie tube

G-online2 transmit and receive switch

H-online2 transmit and receive in one port

I-online1 transmit and receive in one port

J-online1 transmit and receive switch
K-online1 receive port

3.Installation guide

(please read this specification carefully before installtion)

3.1 System category **configuration**：

***3.1.1 One master (transmit and recieve in one)***

MONO (transmit and receive in one), single antenna testing model, connect the main resonance transmit board to online1 mono, push online1 9transmit and receive switch to mono (transmit and receive in one) , push online2 transmit and receive switch to dual antennas.

100cm   100cm

Master (MONO =transmit and receive in one)

***3.1.2 One Master + one slave* （*dual antennas*）**

Dual antennas consisted by mono (one master and one slave), connect he main resonance transmit board to online1 receive port, connect online2 main resonance transmit board to online2 mono (transmit and receive in one)port . Push online1 transmit and receive switch to dual antennas, Push online2 transmit and receive switch to dual antennas. Master receive，online2 slave transmit.

180cm
Master（receive）   online2 salve（transmit）

3.1.3 One master + one slave （*mono+ online2 slave transmit*）

One master + one slave （mono+ online2 slave transmit）, connect he main resonance transmit board to online1 mono port, connect online2 slave resonance transmit board to online2 mono. Push online1 transmit and receive switch to mono, Push online2 transmit and receive switch to dual antennas. Master mono，online2 slave transmit.

100cm   200cm

master （mono）   online2 slave （tansmit）
3.1.4 One master + one slave （*master mono+ online2 mono*）

One master + one slave （master mono+ online2 mono）, connect the main resonance transmit board to online1 mono port, connect online2 slave resonance transmit board to online2 mono. Push online1 transmit and receive switch to mono, Push online2 transmit and receive switch to mono. Master mono, online2 slave mono.

220cm

100cm   100cm

master （mono）   online2 slave （mono）

3.1.5 One master + two slave）

One master + two slave, connect the main resonance transmit board to online1 receive port, connect online1 salve resonance transmit board to online1 mono, connect online2 slave resonance transmit board to online2 mono. Push online1 transmit and receive switch to dual antennas, Push online2 transmit and receive switch to dual antennas, Online1 slave transmit, master receive, online2 slave transmit.

Online1 slave（transmit）   master（receive）   online2 slave（transmit）

3.1.6 One master+ two slave （online1 slave transmit+master receive+ online2 slave mono）

One master+two salve （online1 slave transmit+master receive+ online2 slave mono）, connect the main resonance transmit board to online1 receive port, connect online1 slave resonance transmit board to online1 mono port, connect online2 salve resonance transmit board to online2 mono. Push online1 transmit and receive switch to dual antennas, Push online2 transmit and receive switch to mono. Online1 slave transmit, master receive, online2 slave Mono.

Online1 salve（transmit）   master（receive）   online2 slave（mono）
Two Mono

Dual antennas

3 antennas

3.2 Detecting parameter(cm):

Safe mode	Soft label		Hard tag	
	Detection distance	Suggestion distance	Detection distance	Suggestion distance
Mono	60～80cm	140cm	100～120cm	200cm
Dual	110～130cm	120cm	180～220cm	180cm

Notice：

If soft label and hard tag are used, the installation distance will depends on soft label. The suggestion distance is only for reference,should adjust the distance based on site environment.

3.3 Environment requirement：

1. Ensure there is no large metal objects 2 meters around the antenna,

2. Do not store label or tag near the antenna,

3. Antennas will not be allowed to install near converter-fed high-power equipment.

3.4 Power requirement：

1. Good independent power will be needed, all the antennas should be connected with

the same 220VAC wire, firewire and the zero line and the same position, while equipped with

safety grounding.

2. Select the wire which not connect with power plant to be the firewire of the system.

3. Generator to provide power and UPS power supply could not be used.

3.5 Function test before installation：

1. Open the package, connect the system as the manual, connect with power supply then check

the performance.

2. Keep two antennas in a suitable distance, check the sensitivity.

3. Fix the antennas when the system work well, without hardware problem and no strong

interference in the site.

3.6 Fix antenna：

1. Depends on the performance in the site to adjust the distance, install them in a line.

2. Draw the position of the slotting on the ground, then slot.

3. Fix the antennas.

3.7 Cennection：

1. Select the power supply, 110VAC or 220VAC,

2. Conenct with power supply.

4. Remote debugging system

4.1 Remote control instructure：

4.1.1 Debugging mode

1. Press PSW to enter the password input state,

2. Press ▼or ▲ to 101,

3. Press CON to enter the system debugging model.

4.1.2 Input parameters with function keys

1. Enter system debugging mode;

2. Press ▼or ▲ to input a reasonable number;

3. Press CON.

4.1.3 Save setting

1. Press SA;

2. Press ▲ change the number to"1";

3. Press CON.
Remote control panel

4.2 Parameter Table of remote control function：

Button ID	Name	Function fo parameter	Default	Effective range
A	GN	Gain	2	0，1,2
B	SYN	Synchronization	1	0 to 250
C	RE	Delay	4	0 to 14
H	MIN	Dynamic threshold debugging	40	0 to 200
E	MOD	Parameters invoking mode	0	1，2
D	NSE	Noise	0	1 to 6
S	SA	Save setting	0	0，1
	EX	Exit		
	CON	confirm		
	PSW	Enter debugging mode	108	

4.3 Specification of debug parameters：

4.3.1 Dynamic adjusted thresholds(MIN)

Adjust the alarm threshold, detect the noise of the signal. calculate the signal noise energy, continuous automatic control trigger number, so as to effectively determine the presence of the label, the smaller of the number, the higher the sensitivity, but there is risk of false positives if it is too small; if it is too big, sensitivity will not be enough, we should find an optimal operating point between sensitivity and false positives.

4.3.2 Gain(GN)

0 and 1 mode，"0" means Low gain low sensitivity，"1"means high gain high sensitivity.

4.3.3 Receive Delay (RE)

The smaller the number, the better the sensitivity, but if too small. residual oscillation will enter receive,it will lead to false alarm. If too big, the detection signal will be weak, causing lower sensitivity and shorter detection distance.

4.3.4 Synchronization(SYN)

Synchronize all transmitters, please search the synchronization position patiently when each system out of sync , debugging in the whole range of B value step by step, until reach the smallest number of the noise .

4.3.5 Detect noise of the signal(NSE)

D1   Detect signal strength of receive from the vertical direction。

D2   Detect signal strength of receive from the horizontal direction.

D3   Detect signal strength of noise from the vertical direction(average value) .

D4   Detect signal strength of noise from the horizontal direction(average value).

D5   Detect signal strength of noise from the vertical direction(instantaneous value).

D6   Detect signal strength of noise from the horizontal direction (instantaneous value).

D1, D2 NSE is most commonly parameters used for environmental testing.Which reflects the noise environment (detection area no label) but also reflects the signal strength of the detected label (label put to try different positions, different direction detection area), if the label can be made in the detection region D1, D2 value twice noise reading is greater than when there is no label, indicating that this system can detect the position of the label.

4.4 Debug method：

4.4.1 Automatic adjustment method

When not using the remote control transmitter signal, the display shows the number of times already the alarm. If power outage, the number will be automatically cleared, the counting will start again.

4.4.1.1 Use <u>MOD</u> to run a self-test

● Press the MOD to enter the system, enter the mode setting;

● Press ▼ or ▲ to select 2；

● Press <u>CON</u>.

Notice: Press CON, will return to 0 .

4.4.1.2 Save the self-test parameter

● Press <u>SA</u>

● Press ▼or ▲ to select 1；

● Press <u>CON</u>.

Note: Wait about 30 seconds, when the motherboard LED 4 lights off, the self-tuning end, begin to work.

4.4.1.3 Detect Self-Test Results

In addition to H value (signal tuning), all parameters can be displayed on self-test, After self-test, H value will be 0 .

4.4.1.4 Check following parameter values

Key	Parameter
GN	Gain adjustment
SYN	Sync adjustment
RE	Receive delay

4.4.1.5 If the problem reserved, adjust the synchronization. SYN

● Gradually adjust the value of the synchronization

● Press SYN enter synchronous adjustment settings

● Press ▼or ▲，Progressive scan the entire synchronization range (0-250)

● Press CON

4.4.2 Manual adjustment method

4.4.2.1 Gain adjustment (range: 0-1)

● Press GN；

● Press ▼or ▲ to select parameter；

● Press CON.

4.4.2.2 Sync adjustment (range: 0-250; Default: 1)

Choose the best value from 0 to 250, it can eliminate the interference between two different

systems.

● Press SYN；

● Press ▼or▲to select parameter；

● Press CON to check the noise environment；

Enter this state, when adjust continuously,if see different phases in different noise levels

(resolution from the digital display).Adjusting the phase, selecting a better environment to settings.

4.4.2.3 Receiving window delay (range: 0-14)

Input 1-14, the bigger the value, the slower the reaction rate; the smaller the value, the faster the

reaction.

● Press RE；

● Press ▼or▲to select parameter;

● Press CON.

4.4.2.4 Noise value display (range: 0-6)

LED lights with digital display noise. Note: If you check the noise value, the alarm snooze, unless

you enter 0, exit test status and resume normal alarm.

● Press NES；

● Press ▼or▲to select parameter；

● Press CON.

4.4.2.5 Signal Conditioning (effective range: 0-200)

Increase the value of H can reduce the false alarm rate.

Reduction H value, the system sensitivity will be increased, but there will be risk of false

alarms .

● Press MIN ；

● Press ▼or▲to select the parameter；

● Press CON.

4.4.2.6 Mode Selection

When the remote control to enter this state

● Press MOD；

● Press▼or▲to select parameter；

● Press CON.

0 initial state (non-functional)

1 run default parameters immediately (factory set parameters)

2 start self-test mode immediately

Note: Do not forget to save all operating parameters before the system is powered down or restarted．

4.4.2.7 SA key

This key will save all current parameters to the memory Lane. Therefore, when the power

supply is disconnected parameters will not be lost. When the next time the system is started, will

run all parameters from memory.

● Press SA；

● Press ▼ or▲ to select parameter；

● Press CON.

4.4.2.8 EX key

Press the EX to return to the alarm display counter status．

5 F.A.Q

5.1 Common problem

5.1.1 Check the power cord and signal cables if has been connected correctly and firmly.

5.1.2 Make sure the power is turned on.

5.1.3 Check the fuse , if damaged, replace the fuse。

5.1.4 Check whether the host is in a dry ventilated place, so as not to board hardware failure due to moisture or water caused.

5.2 False alarm

5.2.1 Large metal object(such as metal cart, lockers, umbrella stand, etc.) near antenna

will lead to false alarm.

5.2.2 If there is any 58KHz frequency electronic devices work near antenna, will lead to false alarm.

Common 58KHz electronic equipment are lighting, LED lights, fluorescent lights, printers etc.

5.2.3 Around the antenna non-synchronized sound, and magnetic devices, when sound is not

synchronized with other magnetic devices, it is prone to false positive.

5.2.4 Label or hard tag stock near antenna, label and tag on the checkout counter or on the clothing near the antenna will lead to false alarm..

5.2.5 Transmitted signal delay or distortion will lead to false alarm.

5.3 Power supply

5.3.1 AM system must use a separate power supply, because it is synchronous power equipment, other equipments connect with the same the power supply have a greater interference and result in false positives, sensitivity is reduced and other issues.

5.3.2 The power supply must have a good grounding and can be used to filter noise from the power supply to reduce interference.

5.4 Synchronization

Synchronization must of AM system be within a certain range, including the original AM system and AM system newly installed synchronization, and other surrounding AM system synchronization. Since AM system is not allowed when a launch system to another system receives, if the two systems are not synchronized, it will interfere with each other to produce, reduce sensitivity to produce false positive.

1. First check the same phase power supply system is consistent, neutral and FireWire connection can not be mixed.

2. debug synchronization parameter B, search for appropriate synchronization value, so that each system synchronized.

5.5 Hardware failure

When the device fails, can not solve the problem by checking and remote debugging, the device may be a hardware failure.

5.5.1 No power supply: check the fuse is blown or not, the power outlet has power or not.

5.5.2 No transmit signal: Listen to the transmitting antenna carefully if there are pattered softly around whether vibrations at launch, or using an induction electric pen test antenna if there has an electromagnetic field exists, if not it may be emitted motherboard failure.

5.5.3 No alarm：Even a good label or tag close to the antnna, will no alarm, check the alarm buzzer and coil terminal.

5.5.4 Warning light panel display garbled: light board cable to ensure there is no break and good contact pressure, normal and stable power supply voltage, or it may be a lamp board failure.

5.5.5 Remote control not working: Check the remote control battery 3V chip power is sufficient, warning lights board cable contact is good, normal power supply voltage is stable, the remote control is pointing at the infrared receiver, or it may be an alarm lamp board or remote control to malfunction.

6.Common performance and solution of installation

| Fault category	Performance	Reason	Solution
No alarm	Antenna is connected, not blown fuse, but no power	Check the power supply board found loose plug	Plug the white plug connect the power
	Antenna is connected, the power supply is normal, but not alarm	Due to the strong interference caused antenna automatically blocked	Find the source of interference for the in-store LED lamp interference actions, turn off the LED alarm normal antenna
False alarm	Large metal object near antenna lead to false alarm	Electromagnetic interference signals by reflecting metal objects influence	Remove the large metal object until eliminate false alarm
	There are a large number of antenna near fluorescent lighting and, when turn them on, the antenna false alarm	Frequency of Spotlights and fluorescent starter close to 58KHZ,will influence antenna.	Replace the starter
	Antenna occasional false alarm when no one passing	unexpected interference from power suppluy or something else	Appropriate to increase the value of MIN and RE
	There are a lot of labels around the antenna in a distance, but still false alarm	Cumulative effect of the tag signal	Move the tags/labels away
	There are other brands of am system near the antenna; leading to false alarms	Co-channel interference	Adjust SYN value paiently until synchronizated
Power supply	The noise level is too high, low sensitivity, but also occasional false alarm	Bobble GND	Connect with GND
	Two channels from the same source, a channel with high sensitivity and a channel with sensitivity	Low sensitivity channel reverse the zero line and the fireline	Swap zero line and fireline
Hardware	Antenna almost not alarm , transmit antenna with no	Transmit mainboard	Replace transmit mainboard
	Vibration and Sound blah	damanged	
	Remote control not working, not alarm, light panel power indicator work well	Receiving power board voltage instability	Replace receive mainboard
	Alarm light board garbled, cable connect well	Alarm board malfunction	replace the light board
2018 CATALOG
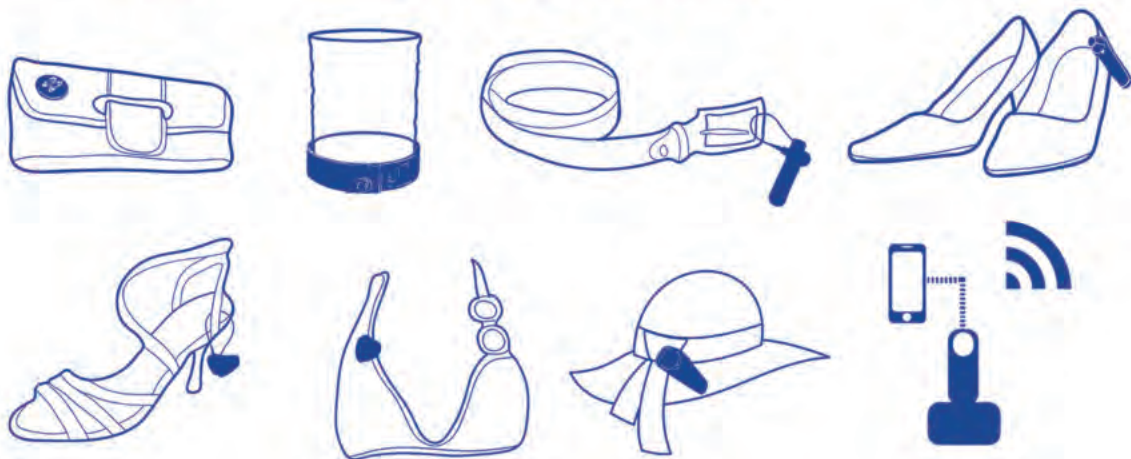

DRAGON GUARD

Why choose us?

> ## More than 12 years experience

XUZHOU DRAGON GUARD INDUSTRIAL CO.,LTD is a manufacturer specialized in electronic article surveillance(EAS) equipment for more than 10 years. Founded in 2004，with rich experiences in loss prevention field.

> ## Approved many certifications

With global customers like Walmart, Tesco, Carrefour,etc. All the products approved CE, ROHS, SGS, MSDS, and other certifications.

> ## International standard factory

With own factory, which is approx 10,000 square meters, that meet ISO9001 demands. In addition, the factory pass the inspection of many big companies such as Auchan, Home Depot etc.

DRAGON GUARD

Established in 2004, is a high-tech enterprise concentrating on Electronic Article Surveillance (EAS) production, development and sourcing for the global market to reduce retail theft and improve shopping experience.
Adopting existing advanced EAS technologies covering RF (Radio Frequency), AM (Acousto Magnetic) and EM (Electro Magnetic), Dragon Guard offers a complete line of EAS products including detection system,hard tag, soft label, safer, bottle tag, milk tag etc. Compatible with international standard and Checkpoint,Gateway, Sensormatic,Shopguard, Gateway, WG, Nedap and other systems.

Dragon Guard products come in a large variety of shapes, sizes, and purposes providing a perfect security protection serving dealers, distributors and end users worldwide. All types of supermarket, library, garment,and retail market etc. , can be secured by Dragon Guard products.

Apart from traditional EAS manufacture and OEM, Dragon Guard also attaches great importance to unique design and new products development. Based on customers' requirements, our professional design and technology team will provide the best products for mutually beneficial cooperation and common devel--opment.

At Dragon Guard, commitment to quality is one of our core values. Every employee is responsible for maintaining a high level of quality in everything we do. In order to guarantee that we established a strict QC team to make full inspection before delivery.

You have the freedom to choose high-quality products and the most optimal solution for your clients or yourselves from Dragon Guard. Your satisfaction and mutually sustainable positive development will be our ultimate goal.

ABOUT US

Contents

"Spider Tag Alarm Tag"

S pider wrap is a kind of anti-theft tag wrapping around the product packaging box, which is applicant for various sizes commodities from big high-grade gifts box to small mobile phone accessories box.

While the alarm tag is more suitable for products with irregular packaging such as shoes, bags and hardware tools.

Both spider tag and alarm tag can be 2 alarm & 3 alarm.

SPIDER WRAP

- Lanyard length customized at your option.
- Applicant for plenty merchandise.
- Multiple security assurance.

SW001 BIG SPIDER WRAP (2/3ALARM)

Frequency:8.2MHz/58KHz/
8.2MHz&58KHz
Unit Dimension:72Dia'*55mm
Plastic Color:Black,White or Customized
Lock:MagneticLocking
Lanyard Length:100cm or Customized
Packing Details:200pcs/ctn,
23.0kgs/ctn,58*40*34cm

SW002 SMALL SPIDER WRAP (2ALARM)

Frequency:8.2MHz/58KHz/
8.2MHz&58KHz
UnitDimension:45Dia'*45mm
Plastic Color:Black,White or Customized
Lock:MagneticLocking
Lanyard Length:60cm or Customized
Packing Details:100pcs/ctn,
5.7kgs/ctn,30*30*23cm

SW004 SPIDER NET (2/3 ALARM)

Frequency:8.2MHz/58KHz/
8.2MHz&58KHz
Unit Dimension:72Dia'*55mm
Plastic Color:Black,White or Customized
Lock:Magnetic Locking
Lanyard Length:36cm/72cm or Customized
Packing Details:150pcs/ctn,
21.5kgs/ctn,58*40*34cm

3 Alarm Spider Wrap

1.The Spider Wrap will alarm when the lanyard is being cut.

2.It will activate the EAS system alarming when carried outside your store.

3.The Spider Wrap itself will also alarm when pass through the EAS system.

AP001 ALARM PIN
(2 ALARM)

Frequency:8.2MHz/58KHz
Unit Dimension:43Dia'*21mm
Plastic Color:Grey,White
Pin Length:16/19mm or Customized
Pin Shaft:SmoothPin/GroovedPin

Advantage

- Self-alarm tag is available in 2-alarm and MultiAlarm variants.
- The 2-alarm version will alarm if the lanyard is being cut, and it will activate your EAS system if the alarm tag pass through your store.
- The MultiAlarm version does the same, but the alarm tag itself will also alarm when carried outside your store, following and intimidating the thief.
- For maximum versatility, the alarm tag incorporates dual AM and RF technologies.

*H*ard tag, is one of the most widely used anti-theft products, easy using and reusable, cost-effective, which can be used on clothing, bags, shoes and other different products.

Hard Tag

Dragon Guard offers a variety of hard tags of Acousto-Magnetic(AM), Radio-Frequency (RF) and RFID technology, also can be customized according to your need.

When a tagged item passes through the anti-theft system at entrance or checkout counter, an alarm sounds warning you that a tagged merchandise is leaving the store without being deactivated or removed at your checkout counter.

T003 MINI ALPHA

Frequency:8.2MHz

"Pin& Lanyard"

*P*in and Lanyard use with tags, fixed tags onto the products which need to be protected.it is an indispensable accessory for tags.For ordinary products,pin is enough,but for bags、Luggage or silk etc. which with high value or easy to damage,in order to avoid damaging goods,it's had better to use lanyard.

According to the material can be divided into plastic pin and metal pin.for the length of pin,it can be customized.The lanyard is durable,it's difficult to damage,thus effectively preventing the theft.

P007 DOME PLASTIC PIN

Unit Dimension:20 Dia'*5mm
Material:Plastic
Plastic Color:Grey,White or Customized
Pin Length:16/19 mm or Customized
Pin Shaft:Super Tag Pin
Packing Details:10000pcs/ctn,11.0kgs/ctn,
57*22*36cm

P009 DOME PLASTIC PIN

Unit Dimension:13 Dia'*4mm
Material:Plastic
Plastic Color:Grey,White or Customized
Pin Length:16/19 mm or Customized
Pin Shaft:Super Tag Pin
Packing Details:10000pcs/ctn,6.0kgs/ctn,
34*24*15.5cm

P008 DOME PLASTIC PIN

Unit Dimension:22 Dia'*10mm
Material:Plastic
Plastic Color:Grey,White or Customized
Pin Length:16 /19 mm or Customized
Pin Shaft:Smooth Pin/Grooved Pin
Packing Details:5000pcs/ctn,20.0kgs/ctn,
55*35*21cm

CUSTOMIZED LENGTH&MATERIAL

Unit Dimension:Customized
Material:Steel
Pin Length:21/27/40mm or Customized
Pin Shaft:Smooth Pin/Grooved Pin
P010 TRANSPARET PIN

Unit Dimension:30Dia'*36mm
Color:Transparent
Pin Length:17/36mm or Customized
Pin Shaft:Smooth Pin/Grooved Pin

LANYARD

L001 LOOP-TO-LOOP

Unit Dimension:1.8mm Dia'
Color:Black,White or Customized
Lanyard Type:Metal Cable
Lanyard Length:175mm or Customized
Packing Details:10000pcs/ctn,20.0kgs/ctn,
43*34*21cm

L002 LOOP-TO-PIN

Unit Dimension:1.8mm Dia'
Color: Black,White or Customized
Lanyard Type:Metal Cable
Lanyard Length:175mm or Customized
Packing Details:10000pcs/ctn,20.0kgs/ctn,
43*34*21cm

L003 POINT WELDING

Unit Dimension:1.2mm Dia'
Lanyard Type:Metal Cable
Lanyard Length:175mm or Customized
Packing Details:10000pcs/ctn,14.3kgs/ctn,
39*22*12cm

L004 EYE-TO-LOOP

Unit Dimension:1.8mm Dia'
Lanyard Type:Metal Cable
Lanyard Length:230mm or Customized
Packing Details:2500pcs/ctn,11.0kgs/ctn,
54*38*18cm

L005 LOCK LANYARD

Unit Dimension: 7.8 Dia'*15mm,1.3mm Dia'
Plastic Color:White or Customized
Lanyard Type:Metal Cable
Lanyard Length:95mm or Customized
Lanyard Color:Black,White or Customized

L006 LOOP-TO-PIN

Color: Black,White or Customized
Lanyard Type:Metal Cable
Lanyard Length:150mm or Customized

BOTTLE TAG

Different kinds of bottle tag have their own advantage. The length of bottle tag with lanyard can be adjusted to lock different sizes of bottle. Also cost less.

Bottle cap can prevent stealing drink,looks pretty.

Bottle tags are widely used in supermarket,wine store,etc.

B001 BOTTLE TAG WITH METAL CABLE

Frequency:8.2MHz/58KHz
Unit Dimension:50 Dia'*33mm

Lock:Magnetic Locking
Lanyard Type:Metal Cable
Lanyard Length:175mm or Customized
Packing Details:300pcs/ctn,7.5kgs/ctn,
42*32*21cm

B002 BOTTLE TAG WITH METAL CABLE

Frequency:8.2MHz
Unit Dimension:47*42*19mm
Plastic Color:Black,White or Customized
Lock:Magnetic Locking
Lanyard Type:Metal Cable
Lanyard Length:175mm or Customized
Packing Details:1000pcs/ctn,14.0kgs/ctn,
42*32*32cm

B003 BOTTLE TAG

Frequency:8.2MHz/58KHz
Unit Dimension:Inner size 50 Dia'mm
Out Size:35 Dia'mm Hign 21mm
Material:PC
Plastic Color:Grey,White or Customized
Lock:Magnetic Locking
Packing Details:500pcs/ctn,13.0kgs/ctn,
37*31*24cm

B004 BOTTLE TAG WITH METAL CABLE

Frequency:8.2MHz/58KHz
Unit Dimension:36*30*33mm
Plastic Color:Grey,White or Customized
Lock:Magnetic Locking
Lanyard Type:Metal Cable
Lanyard Length:175mm or Customized
Packing Details:500pcs/ctn,11.5kgs/ctn,
46*32*21cm

B008 BOTTLE TAG WITH PLASTIC CABLE

Frequency:8.2MHz
Unit Dimension:47*42*19mm
Plastic Color:Grey,White or Customized
Lock:Magnetic Locking
Lanyard Type:PA+Steel Ribbon
Lanyard Length:160mm

B009 BOTTLE TAG WITH PLASTIC CABLE

Frequency:8.2MHz/58KHz
Unit Dimension:50 Dia'*33mm
Plastic Color:Black,White or Customized
Lock:Magnetic Locking
Lanyard Type:PA+Steel Ribbon
Lanyard Length:160mm
Packing Details:500pcs/ctn,11.0kgs/ctn,
42*32*32cm

B010 BOTTLE TAG WITH PLASTIC CABLE

Frequency:8.2MHz/58KHz
Unit Dimension:37*30*36mm
Plastic Color:Grey,White or Customized
Lock:Magnetic Locking
Lanyard Type:PA+Steel Ribbon
Lanyard Length:160mm
Packing Details:500pcs/ctn,12.0kgs/ctn,
40*30*28cm

B011 BOTTLE CAP

Frequency:8.2MHz/58KHz
Unit Dimension:Inner size 33mm Dia'
Outer size:54mm Dia' High 44mm
Material:ABS+PC
Lock:Magnetic Locking
Packing Details:300pcs/ctn,13.0kgs/ctn,
42*32*32cm

B012 BOTTLE CAP

Frequency:8.2MHz/58KHz
Unit Dimension:Inner size 41.5mm Dia'
Outer size:43.5mm Dia' High 80mm
Material:ABS+PC
Lock:Magnetic Locking
Packing Details:300pcs/ctn,14.0kgs/ctn,
58*40*34cm

B005 CUP TAG

Frequency:8.2MHz/58KHz
Unit Dimension:307*48.5*40mm
Lock: Standard/Super≥200N
Range Of Application:Φ64-70mm
Packing Details:200pcs/ctn,8.7kgs/ctn,
43*36*26cm

B005 CUP TAG

B015 BOTTLE CAP

Frequency:8.2MHz/58KHz
Unit Dimension:Inner size 37mm Dia'
Outer size 56mm Dia' High 60mm
Material:PC
Lock:Magnetic Locking
Packing Details:300pcs/ctn,14.0kgs/ctn,
58*40*34cm

B015 BOTTLE CAP

B018

Frequency:8.2MHz/58KHz
Unit Dimension:Inner size 35mm Dia'
Outer size:61mm Dia' High 59mm
Material:ABS
Lock:Magnetic Locking
Packing Details:250pcs/ctn,15.6kgs/ctn,
45*32*32.5cm

B018

B019 BOTTLE LOX

Frequency:8.2MHz/58KHz
Unit Dimension:Inner size 39mm Dia'
Outer size 43mm Dia' High 61mm
Material:ABS+PC
Lock:Magnetic Locking

B019 BOTTLE LOX

"BABY FORMULA MILK POWDER SECURITY TAG"

Milk powder has small size but high price,so it has been a high rate of theft in the store.
In particular,we have designed a variety of anti-theft buckle and anti-theft base for canned products.

Products covered by the disposable/reuseable CanGrip,Milk Tag with metal Cable,Alarm Milk Powder etc.

It provided a good anti-theft protection for common canned goods on the market (especially the milk powder)

Ah?
The original milk powder can be so protected !

What are the benefits of using milk powder Security Tag?

- Compatible with common milk powder cans
- Easily Removable & Fast Installation
- Keep your product elegant & Never damage to the product surface
- Hardness Surface & Delicate Shape & Easy Fixed & Firm Standing
- Publicize your brand clearly & Never cover the product message and manufacturing date

HOW TO USE?

Place can upward

Plush to lock

To detacher

MS001 ROUND MILK TAG

Frequency:8.2MHz/58KHz or Customized
Unit Dimension:50 Dia'*33mm
Plastic Color:Black,White or Customized
Lock:Magnetic Locking
Lanyard Type:Metal Cable
Lanyard Length:480mm or Customized
Packing Details:300pcs/ctn,11.0kgs/ctn
50*33*23cm

MS002 TRIANGLE MILK TAG

Frequency:8.2MHz/58KHz or Customized
Unit Dimension:36*30*33mm
Plastic Color:Grey,White or Customized
Lock:Magnetic Locking
Lanyard Type:Metal Cable

Detacher

Detacher is a necessary product for unlocking the hard tags. There are two kinds: magnetic detacher and mechanical detacher.
Both the shape and the magnetic force can be customized. Different detachers with different magnetic force correspond to different tags. Need to be choosed according to the shape and the lock of the hard tags.

RF & AM LABEL

E *AS soft label, can be sticked inside or outside products' package.*

When people pass the EAS system, the soft label without been deactivated by cashier, the system will alarm to draws attention to staff .

The soft label is very little and exquisite. Not only won't cover the commodity information, but also with anti-theft function, which is make customers feel good when they shopping.

RF Label

Product Specification

Label Size (MD×TD)	40*40mm
Substrate	20µm
Inductor Side	Aluminium,60µm
Capacitor Side	Aluminium,20µm
Max. Thickness	≈200µm
Shelf life of 2 years if stored at	10°to 25℃(50°to 70℉) and 35% to 65% RH
Service Temperature	-40°to 60℃(-40°to 140℉)
Application Temperature	above 0°(32℉)
Resonance Frequency	8.2MHz(±3%)
Effective Signal Volume	≧2000cm3
Quality Factor	Q≧70
Deactivation Fieldstrength	0.9A/m—1.5A/m
Operating Distance	up to 1.6m(5.2ft.)in Gate Configuration
Standard Packaging Format	Label facing out
Quantity per Roll	1000pcs
Roll Length	≈42.5m
Roll Diameter outer	φ<145mm
Cardboard Core Diameter inner	76.2mm
Box Packaging(Rolls)	20 Rolls
Box Packaging(Labels)	20000 Labels
Box Gross weight	10.5kg
Box Dimension	29*29*23cm

Advantage

- Strong adhesive, neat and smooth appearance, hard to be torn off from products.
- High Q value and 9 laps coil provide RF Label a super-wide detecting distance.
- Easy decoding. Match with Dragon Guard RF Deactivator with simple operation
- Strict production process. Defective rate is 0.03%.
- Complete specification ranges, provide Dragon Guard RF Label a larger selection of color, size and printing plate.

Customized Label

All the tags can be customized according to different requirements by distributors or retailers
such as the logo of customers, customized pattern and different sizes.
Below are the cases we made for our customers:

Customized Size

| 25*28mm | 30*47mm | 32*57mm | 40*47mm | 43*45mm | 40*70mm |

AM Label

Product Specification

DR is a paste-type anti-theft label, composed of two pieces of vibration and a high-performance substrate.
Deactivable & Non-Deactivable both available

White, barcode,black, customized logo are available. You can choose by sheet or roll.

Deactivated by AM deactivator.

This product is suitable for: clothing, shoes and hats, bags, and the packaging of daily necessities / food and so on.

Advantage

- Have less influence than RF label
- Small label, easy to stick on small items
- Reactivable
- White, black, barcode, customized logo are available

Environmental Constraints

- Shelf Life: Two years from date of manufacture when labels are stored between 15-32 (60°F -90°F) and 30-80%RH.
- Temperature: Maximum storage temperature not to exceed 50 (122°F) for 96 hours at 80% RH.
- Humidity: Unaffected by 80% humidity at 50(122°F), up to 96 hours

Notice

Do not place DR label above the important words, such as product ingredients, methods of use, warning statements, dimensions and barcodes, production dates, and etc..

DR label with super glue, if you force to tear off it, the surface of merchandise will be damaged. Therefore, should consider of this point in advance if you want to use it for gift, leather products, books and others.

"SOURCE TAG"

Ensure security from the very beginning.

Like the name, sourcing tags are tags attached to commodities at beginning manufacture. It is widely adopted by large-scale retail business and chain business. Sourcing tags can help to solve the theft and fleeing problems from production, stocking, retail to inventory. By this way, labor cost and material resources can be saved a lot and business operating cost saved as well. For now, sourcing tags are widely used for anti-theft. Theft and shoplifting often happens in supermarket and chain stores, and to solve this problem, attaching tags is very necessary. While putting tag to each commodity is a time taking work, so the market adopts the way that putting tags onto commodities at beginning manufacture. In such way, market can save operating cost and also realize tag synchronization.

Packing Details:1000pcs/ctn,8.5kgs/ctn,
46*32*21cm

T040 SUPER TAG VST

T040 SUPER TAG VST

Frequency:58KHz
Unit Dimension:10.2 Dia'*42.67mm
Plastic Color:Grey,Black or Customized
Packing Details:
3000pcs/ctn,11.0kgs/ctn,43*29*20cm
5000pcs/ctn,17.0kgs/ctn,46*34*29cm

T029 TOWEL TAG

T029 TOWEL TAG

*D*isplay security is a kind of anti-theft product, which has the alarm function, is controlled by remote control, and with rechargeable lithium battery.

Commonly, it is used to protect smart phone, pad, smart watch and other electronic products.

The advantages of fashionable outlook, easy operation, beautiful displayed enhance the shopping experience.

It is particularly suitable for digital shopping mall, brand stores, mobile business hall and other stores which have high requirements on display.

DSP1001
Unit Dimension:103*67*105mm
Material:ABS
Color:White
Apply:Mobile Phone
Packing Details:56pcs/ctn,19.5kgs/ctn,
60*48*34cm

DSP1002
Unit Dimension:103*67*146mm
Material:ABS
Color:White
Apply:Mobile Phone
Packing Details:45pcs/ctn,17.0kgs/ctn,
60*48*34cm

DSP2001
Unit Dimension:108*46*160mm
Material:EPS
Color:White
Apply:Mobile Phone
Packing Details:25pcs/ctn,7.5kgs/ctn,
56*43*20cm

DSP5001
Unit Dimension:70*65*107mm
Material:ABS
Color:White
Apply:Mobile/Watch/Camera/PAD etc.
Packing Details:56pcs/ctn,19.5kgs/ctn,
60*48*34cm

DSP5002
Unit Dimension:75*70*85mm
Material:ABS
Color:White
Apply:Mobile Phone
Packing Details:50pcs/ctn,12.0kgs/ctn,
65*45*18cm

DSP5005
Unit Dimension:59*63*63mm
Material:ABS+PMMA+Aluminium Alloy
Color:White
Apply:Mobile Phone
Packing Details:80pcs/ctn,17.0kgs/ctn,
75*33*29cm

DSP6002
Unit Dimension:75 Dia'*130mm
Material:ABS
Color:White
Apply:Mobile Phone
Packing Details:50pcs/ctn,11.5kgs/ctn,
65*45*25cm

DSP6003
Unit Dimension:52*80mm
Material:ABS+VioGi Aluminum
Color:White
Apply:Mobile Phone

DSPM1602
Unit Dimensiont:45*60*80mm
Material:ABS+VioGi Aluminum
Color:White/Silvery
Apply:Mobile Phone
Packing Details:80pcs/ctn,17.0kgs/ctn,
75*33*29cm

PAD1001

Unite Dimension:144*119*57mm
Material:Acrylic+ABS
Color:White
Apply:PAD
Packing Details:30pcs/ctn,11.46kgs/ctn,
60*48*34cm

PAD1002

Unite Dimension:132*111*150mm
Material:Acrylic+ABS
Color:White,Black
Apply:PAD
Packing Details:20pcs/ctn,8.5kgs/ctn,
75*33*29cm

PAD3001

Unite Dimension:140*110*100mm
Material:Metal+ABS
Color:White or Customized
Apply:PAD
Packing Details:22pcs/ctn,11.0kgs/ctn,
52.5*39*27cm

LP001 LAPTOP LOCK

Unite Dimension:56*18*21mm
Weight:41.8g
Cabel Diameter:5 Dia'mm
Cabel Length:2m

DSP3001

Unite Dimension:90*53*53mm
Material:ABS
Color:White
Packing Details:22pcs/ctn,12.0kgs/ctn,
52.5*39*27cm

DSW1602

Unite Dimension:87*73*115mm
Material:Acrylic+ABS
Battery Capacity:250mAh
Stand-by time:5-10days
Color:White/Black
Apply:Watch/Smart Ring
Packing Details:20pcs/ctn,9.0kgs/ctn,
75*33*29cm

DSW1604

Unite Dimension:87*73*115mm
Material:Acrylic+ABS
Battery Capacity:210mAh
Stand-by time:12-15 months
Color:White/Black
Apply:Watch/Smart Ring
Packing Details:20pcs/ctn,6.0kgs/ctn,
75*33*29cm

HP002

Unite Dimension:78*49*128mm
Material:ABS
Battery Capacity:1000mAh
Color:White/Black
Apply:Watch/Smart Ring
Packing Details:38pcs/ctn,9.5kgs/ctn,
52.5*39*27cm

New Secure Fixtures

Advantage

- Easy assembling,easy operation,bearing and tightly.
- 50% of labor cost- reduction, 70% Space-saving .
- Safely display your products and increase sales value.
- The goods can be displayed in good order and appearance, it not only keeps the goods in safe state,but also make the clients clear at a glance.
- Mainly used for display sales of blister & packaging commodities.

Unite Dimension:150*180*250mm

Material:Aluminium Alloy &ABS

Net Weight:150g

Lock:Special Super Magnetic

SF2002-GROOVE PLATE

SF3001-SQUARE TUBE

AM System

Advantages of AM system:
1. Excellent detection performance
2. Wider aisle allowed
3. Strong anti-interference ability

A coustic magnetic system mainly use acrylic or resin material, fashionable and beautiful, greatly reduce the losses of shoplifting in shops, and creates a better atmosphere of an honest and safe retail environment.

AM hard tags are available in many different form factors,and AM adhesive label is very small than RF label, which can bring a more secure and concealed protection.

AS1001

Master/Slave

Product Specification

- Use high quality aluminum alloy material, more durable.
- Super anti-interference performance, strong resistance to metal shielding.
- Can be posted advertising painting, beautiful appearance, has promotional and hidden function

Frequency	58KHz
Unit Dimension	163*36*8cm(H*W*D)
Material	Aluminium Alloy
Packing Details	2pcs/ctn,25.0kgs/ctn,169*27.1*41.5cm
Application	Supermarket,garment shop,digital shop etc.

Detection Distance	**DUAL** DR label: 1.5-1.7m Hard Tag:1.8-2.0m	**MONO** DR label: 0.75-0.85m Hard Tag:0.9-1.0m

AS1002

Master/Slave

Product Specification

- The outer border of the reinforcement Aluminum Alloy, fire resistant collision.
- Inner surface embedded imported acrylic sheet, can be inserted billboards.
- Mobile phone APP and computer wireless software two debugging modes are optional.

| Frequency	58KHz
Unit Dimension	160cm*37cm*4.5cm(H*W*D)
Material	Reinforcement Aluminum Alloy & acrylic
Packing Details	Master: 8.5KG Slave: 6.5KG
Application	Supermarket,garment shop,digital shop etc.
Detection Distance	DR label:1.7-1.9m Hard Tag:2.0-2.5m

AS1003

Master/Slave

Product Specification

- Low voltage and radiation - safety, energy saving and environmental protection;
- Innovative features - advertising and making profit for customers;
- Remote after-sale service - solving the problem more efficiently;
- Transceiver - master work alone, one master with two slave reduce costs.

| Frequency	58KHz±0.5KHz
Unit Dimension	151.5*39.5*9cm(H*W*D)
Material	Imported Acrylic + Aluminum Alloy Frame
Packing Details	1pc/ctn,11kgs/ctn,160*45*15cm
Application	Supermarket,garment shop,digital shop etc.
Detection Distance	(((DR label:1.8-2.0m))) (((Hard Tag:2.8-3.0m)))

AS1004

Master/Slave

Product Specification

- Low voltage and radiation - safety, energy saving and environmental protection;
- Innovative features - advertising and making profit for customers;
- Remote after-sale service - solving the problem more efficiently;
- Transceiver - master work alone, one master with two slave reduce costs.

Frequency	58KHz±0.5KHz
Unit Dimension	152.5cm*40cm*9cm(H*W*D)
Material	Imported Acrylic + Aluminum Alloy Frame
Packing Details	1pc/ctn,14kgs/ctn,160*45*15cm
Application	Supermarket,garment shop,digital shop etc.
Detection Distance	(((DR label:1.8-2.0m))) (((Hard Tag:2.8-3.0m)))

Dragon guard your treasure.

AS4001

Dual/Mono

Product Specification

- Body is made from high light transmittance acrylic. With graceful outlook, it can leave customers an elegant sumptuous impression of the store.
- Among similar antennas, this one is with better detecting distance and anti-interference performance, which make it suitable for all kinds of high-end brand garment stores.
- Very stable performance, longer detecting distance

Frequency	58KHz
Unit Dimension	150*39*2.5cm(H*W*D)
Material	Acrylic
Packing Details	1pcs/ctn,26.5kgs/ctn,161.5*46.5*14cm
Application	Supermarket,garment shop,digital shop etc.

Detection Distance	**DUAL** DR label: 1.2-1.4m Hard Tag:1.8-2.0m	**MONO** DR label: 0.6-0.7m Hard Tag:0.9-1.0m

AS4002

Master/Slave

Product Specification

- Industrial DSP digital signal processor, automatic tuning circuit , plug and play, hardware and software synchronization debugging, Sound and light alarm, wireless synchronization system is simple to install,AS4002 can play any format video files, pictures, music and so on.
- AS4002 is anti-theft system, at the same time, it has advertising effect, increase the attractiveness of goods, and promote corporate propaganda.

Frequency	58KHz
Unit Dimension	150*37*2.5cm(H*W*D)
Material	Acrylic
Packing Details	1pcs/ctn,22.0kgs/ctn,167.5*44.5*21.5cm
Application	Supermarket,garment shop,digital shop etc.

Detection Distance	(((DR label:1.1-1.2m))) (((Hard Tag:1.4-1.8m)))

AS4004

Dual/Mono

Product Specification

- Made by Germany imported acrylic material，beautiful and clear appearance，will not be deformed.
- Easy installation, without debugging and no need to connect with external host.
- With LED display counter,can be adjusted by remote control.

Frequency	58KHz
Unit Dimension	150*40*2cm(H*W*D)
Material	Acrylic
Packing Details	1pcs/ctn,22.0kgs/ctn,160*48*17cm
Application	Supermarket,garment shop,digital shop etc.

| Detection Distance	**DUAL** DR label: 1.2-1.6m Hard Tag:1.5-3.0m	**MONO** DR label: 0.6-0.8m Hard Tag:0.75-1.5m

AS4005

Master/Slave

Product Specification

- Made by Germany imported acrylic material，beautiful and clear appearance，will not be deformed
- Easy installation, without debugging and no need to connect with external host
- Strong anti-interference ability, almost no false alarm

|	
Frequency	58KHz
Unit Dimension	160cm*43cm*20cm(H*W*D)
Material	Acrylic
Packing Details	2pcs/ctn,23.0kgs/ctn,162*51*21cm
Application	Supermarket,garment shop,digital shop etc.
Detection Distance	(((DR label:0.75-1.5m))) (((Hard Tag:1.9-2.2m)))

AS4006

Master/Slave

Product Specification

- Germany imported acrylic,transparent and fashion-forward design, high temperature resistance, no deformation
- Suitable for boutiques， blend perfectly with the surrounding decor
- Digital signal processing technology
- Self-adjusting electronics(SMD) technology

| Frequency	58KHz
Unit Dimension	153*39*2.5cm(H*W*D)
Material	Acrylic
Packing Details	1pc/ctn,24kgs/ctn,167*50*14cm
Application	Supermarket,garment shop,digital shop etc.
Detection Distance	(((DR label:1.1-1.2m))) (((Hard Tag:2.2-2.4m)))
AS4007

Master/Slave

Product Specification

- Motherboard is an intelligent digital display board.
- Effectively shorten the detection distance of the antenna outside (such as anti-theft tag), reduce false alarm.
- Super anti-interference ability. Can be used with other installed antennas.

| Frequency	58KHz
Unit Dimension	146cm*20cm*2cm(H*W*D)
Material	Acrylic
Packing Details	1pc/ctn,29kgs/ctn,154*28*31cm
Application	Supermarket,garment shop,digital shop etc.
Detection Distance	(((DR label:1.4-1.8m))) (((Hard Tag:2.6-3.0m)))

Dragon guard your treasure.

AS5001

Master/Slave

Product Specification

- Made by high strength ABS material，beautiful and clear appearance
- Easy installation, without debugging and no need to connect with external host
- The world's leading self-test technology and DSP digital signal processing system to ensure the high detection rate
- Strong anti-interference ability, almost no false alarm

Frequency	58KHz
Unit Dimension	157.5*43*14cm(H*W*D)
Material	ABS
Packing Details	1pcs/ctn,9.5kgs/ctn(master),5.5kgs/ctn(slave)
Application	Supermarket,garment shop,digital shop etc.
Detection Distance	(((DR label:0.75-1.5m))) (((Hard Tag:1.8-2.2m)))

AS6001

Product Specification

- Completely hidden guarantee store beautiful appearance,while improving the space utilization rate.
- Buried antenna provides wide protection of entrance and exit.
- The newest hardware designs makes the installation& debugging more convenience.
- Eight-core cable wiring, the device can be debugged online.

Frequency	58KHz
Unit Dimension	186*60*2cm(H*W*D)
Material	ABS
Packing Details	Antenna:1pcs/ctn,11.5kgs/ctn,190*65*2.5cm Controller:1pcs/ctn,6.5kgs/ctn,46.5*28.5*21.5cm Power Amplifier:1pcs/ctn,2.5kgs/ctn,32.5*27.5*6.6cm
Working Model	1 antennas+1 controller+1 matching boards
Detection Distance	Detection Height 0-0.7m for DR label 0-1.6m for Hard Tag

AS7001

Dual/Mono

Product Specification

- Automatically adjust the signal
- With anti-interference technology, intelligent detection
- High-speed DSP digital signal processing, improved the detection rate and stability

Frequency	58KHz
Unit Dimension	148*45*12cm(H*W*D)
Material	ABS
Packing Details	2pcs/ctn,21.0kgs/ctn,150*51*24cm
Application	Supermarket,garment shop,digital shop etc.
Detection Distance	**DUAL** DR label: 1.4-1.6m Hard Tag:2.2-2.4m **MONO** DR label: 0.7-0.8m Hard Tag:1.1-1.2m

AS8001

Mater/Slave

Product Specification

- DSP (Digital Signal Processing) technology with high sensitivity.
- Strong anti-interference technologies and minimize false alarm.
- HIPS material,sleek modern new design,very stable performance and ultra wide detection distance.

| Frequency	58KHz
Unit Dimension	143.5*38*1.5(H*W*D)
Material	HIPS
Packing Details	13.5kgs/ctn(master),15.0kgs/ctn(slave),150*45*19cm
Application	Supermarket,garment shop,digital shop etc.
Detection Distance	DR label:1.1-1.3m Hard Tag:1.8-2.0m

AS9006 Product Specification

Frequency	58KHz	Working Voltage	110V-240V
Working Environment	-20°C-60°C	Unit Dimension	155*49.5*3.2cm
Material	FRP+Metal	Packing Details	2pc/ctn,17.0kgs/ctn 160*58*25CM

(MONO)Detection Distance:

DR Label 0.7m

AM Hard Tag 2-2.2m
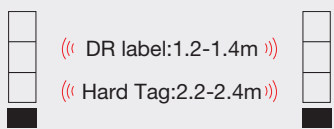

Dragon guard your treasure.

AS9006

Master/Slave

Product Specification

- Use imported high standards of high hardness FRP material, high temperature resistant, novel material and elegant appearance
- Wide detection range, the maximum distance between two antennas can be achieved 2.8 meters detection distance, multiple combinations are available
- Easy Installation, plug and play, can be automatically adjusted and synchronized

| Frequency	58KHz
Unit Dimension	155cm*49.5cm*3.2cm(H*W*D)
Material	FRP+Metal
Packing Details	2pcs/ctn,17.0kgs/ctn,160*58*25cm
Application	Supermarket,garment shop,digital shop etc.
Detection Distance	DR label:1.2-1.4m Hard Tag:2.2-2.4m

AS9002

Mater/Slave

Product Specification

- Easy installation, High performance
- Wide detection range
- Advanced technology with software control which ensures antenna. works stable even under the noise environment.

Frequency	58KHz
Unit Dimension	154.8cm*40cm*13cm(H*W*D)
Material	ABS
Packing Details	15.0kgs/ctn(master),11.0kgs/ctn(slave),172*47*20cm
Application	Supermarket,garment shop,digital shop etc.
Detection Distance	DR label:1.2-1.4m Hard Tag:2.2-2.4m

RF System

Due to the high frequency of RF, high efficiency, the required transmission power is small, RF antenna can be done slim and delicate, more beautiful and fashionable.

RF anti-theft system is one of the earliest application of electronic anti-theft system. With mature technology, high detection rate, wide installation distance, it can protect the major commodities in the shop better. What's more, it can be used alone or as needed to form multiple channels for flexible installation.

Dragon guard your treasure.

RS4001

Dual

Product Specification

● Adapting good digital signal processing technology and automatic gain control function of advanced pulse AGC technology. At the same time double screening AGC more adaptable.

● The main function is controlled by the single-chip and intelligent application software. With PIT detection technology, identification code technology, LED multi-functional full process display technology

Frequency	8.2MHz
Unit Dimension	155*36*2cm(H*W*D)
Material	Aluminum Alloy+ABS
Packing Details	2pc/ctn,15.0kgs/ctn,161*42*20cm
Apply	Supermarket,garment shop,cosmetic shop etc.
Detction Distance	RL 4*4:1.4-1.6m T002 mini square:1.4-1.6m T004 large square:1.6-1.8m

Packing Details	1pc/ctn,9kgs/ctn,171*46*21.5cm
Apply	Supermarket,garment shop,digital shop etc.
Detction Distance	**DUAL** RL 4*4:1.4-1.6m T002 mini square:1.6-1.8m T004 large square:1.8-2.0m	**MONO** RL 4*4:0.7-0.8m T002 mini square:0.8-0.9m T004 large square:0.9-1.0m

Dragon guard your treasure.

RF SYSTEM
RS5007 (DUAL)

Frequency:8.2MHz
Working Voltage:110V-240V
Working Environment:-20℃-60℃
Unit Dimension:155.8*24*3cm
Material:Aluminium Alloy
Detection Distance:
RF Label:1~1.5m
Small Square Tag:1.6m
Large Square Tag:1.8m
Packing Details:2pcs/ctn,8kgs/ctn,
170*20*42cm

RS4006

Dual

Product Specification

• High quality acrlic, beautiful look and tough structure.
• With small and exquisite shape, saving space.
• Sound-light alarm technology, with stable performance.

Frequency	8.2MHz
Unit Dimension	145*20*10cm(H*W*D)
Material	Acrylic
Packing Details	2pc/ctn,24.0kgs/ctn,160*26*20cm
Apply	Supermarket,garment shop,digital shop etc.
Detction Distance	RL 4*4:0.9m T002 mini square:1.2m T004 large square:1.5-2.0m

RS5007

Dual/Mono

Product Specification

• High quality aluminium alloy, no painting fading.
• With small and exquisite shape, saving space.
• Sound-light alarm technology, with stable performance.

| Frequency	8.2MHz
Unit Dimension	155.8*24*3cm(H*W*D)
Material	Aluminium Alloy
Packing Details	2pc/ctn,8.0kgs/ctn,170*20*42cm
Apply	Supermarket,garment shop,digital shop etc.
Detction Distance	**DUAL** RL 4*4:1.2-1.5m T002 mini square:1.4-1.6m T004 large square:1.6-1.8m	**MONO** RL 4*4:0.6-0.75m T002 mini square:0.7-0.8m T004 large square:0.8-0.9m

Dragon guard your treasure.

RS5001

Dual/Mono

Product Specification

- Brandnew acrylic material imported from Germany;
- Advanced technology and software control method ensure stable performance of antenna
- Easy installation and operation
- Red and blue leds are available

Frequency	8.2MHz
Unit Dimension	158*36*2cm(H*W*D)
Material	Acrylic
Packing Details	1pc/ctn,19.5kgs/ctn,172*47*20cm
Apply	Supermarket,garment shop,digital shop etc.
Detction Distance	**DUAL** RL 4*4:1.4-1.6m T002 mini square:1.6-1.8m T004 large square:≥2.2m **MONO** RL 4*4:0.7-0.8m T002 mini square:0.8-0.9m T004 large square:≥1.1m
RS6002

Dual/Mono

Product Specification

- Brandnew acrylic imported from Germany;
- No-blind-zone 3D detecting techniques ensure super high ratio of successful detection of label and tag.
- Super high detecting efficiency. Low misinformation ratio. Reliable mature multichannel online technology.

Frequency	8.2MHz
Unit Dimension	158*36*2cm(H*W*D)
Material	Acrylic
Packing Details	1pc/ctn,20.0kgs/ctn,172*42*17cm
Apply	Supermarket,garment shop,digital shop etc.
Detction Distance	**DUAL** RL 4*4:1.4-1.6m T002 mini square:1.6-1.8m T004 large square:≥2.2m **MONO** RL 4*4:0.7-0.8m T002 mini square:0.8-0.9m T004 large square:≥1.1m

Dragon guard your treasure.

WIDE
DETECTION
RS5008
DUAL/MONO

RS5002

Dual/Mono

Product Specification

- Its material is high-quality aluminum alloy, which makes the antenna durable
- It adopts digital processing technology, so it has stable performance and low false alarm rate

Frequency	8.2MHz
Unit Dimension	156*40*3cm(H*W*D)
Material	Aluminum Alloy
Packing Details	1pc/ctn,13.0kgs/ctn,170*49*20cm
Apply	Supermarket,garment shop,digital shop etc.
Detction Distance	**DUAL** RL 4*4:1.2-1.6m T002 mini square:1.6-1.8m T004 large square:≥2.0m / **MONO** RL 4*4:0.6-0.8m T002 mini square:0.8-0.9m T004 large square:≥1.0m

RS5008

Dual/Mono

Product Specification

- Its material is high-quality aluminum alloy, which makes the antenna durable
- Its alarm distance is particularly wide
- It is widely applicable to supermarket store

Frequency	8.2MHz
Unit Dimension	167*42*2cm(H*W*D)
Material	Aluminium Alloy
Packing Details	2pcs/ctn,14kgs/ctn,171*20.5*46cm
Apply	Supermarket,garment shop,digital shop etc.
Detction Distance	**DUAL** RL 4*4:1.4-1.6m T002 mini square:1.6-1.8m T004 large square:≥2.2m / **MONO** RL 4*4:0.7-0.8m T002 mini square:0.8-0.9m T004 large square:≥1.1m

Dragon guard your treasure.

RS5003

Dual/Mono

Product Specification

- Strong anti-interference capability, low working power
- Stable performance，Wide detection distance
- Easy installation，no additional equipment to adjust

Frequency	8.2MHz
Unit Dimension	155*36*2cm(H*W*D)
Materrial	Aluminum Alloy
Packing Details	2pc/ctn,15.0kgs/ctn,161*42*20cm
Apply	Supermarket, Clothes store, and other retail stores.
Detction Distance	**DUAL** RL 4*4:1.4-1.6m T002 mini square:1.6-1.8m T004 large square:≥2.2m	**MONO** RL 4*4:0.7-0.8m T002 mini square:0.8-0.9m T004 large square:≥1.1m

RS5004

Dual

Product Specification

- Advanced RF technology, pulse signal work mode,it can save power than the traditional EAS system.
- Simply installation,no need for other equipment to debugging.
- Wireless synchronization

Frequency	8.2MHz
Unit Dimension	163*22*4.5cm(H*W*D)
Materrial	Aluminum Alloy
Packing Details	2pc/ctn,18.0kgs/ctn,173*40*21cm
Apply	Supermarket, Clothes store, and other retail stores.
Detction Distance	RL 4*4:1.4-1.6m T002 mini square:1.4-1.6m T004 large square:1.6-1.8m

Dragon guard your treasure.

RS6003

Dual/Mono

Product Specification

- German imported high quality organic glass; unique alarm lamp and base design, stylish and generous appearance
- High detection efficiency and low false alarm rate
- Specially designed which with Ultra - width detection distance for the high end stores and specialty stores

Frequency	8.2MHz
Unit Dimension	161*38*2cm(H*W*D)
Material	Acrylic
Packing Details	1pc/ctn,24.0kgs/ctn,165*45*15cm
Apply	Supermarket,garment shop,digital shop etc.
Detction Distance	**DUAL** RL 4*4:1.2-1.4m T002 mini square:1.6-1.8m T004 large square:1.8-2.0m	**MONO** RL 4*4:0.6-0.7m T002 mini square:0.8-0.9m T004 large square:0.9-1.0m

RS6005

Dual/Mono

Product Specification

- Advanced technology and software control method ensure stable performance of antenna
- Easy installation and operation
- Optional red, green and blue LEDs
- Available in mono or dual configuration

Frequency	8.2MHz
Unit Dimension	151*27*12cm(H*W*D)
Material	Acrylic
Packing Details	1pc/ctn,20.0kgs/ctn,172*42*17cm
Apply	Supermarket,garment shop,digital shop etc.
Detction Distance	**DUAL** RL 4*4:1.2-1.4m T002 mini square:1.6-1.8m T004 large square:1.8-2.0m	**MONO** RL 4*4:0.6-0.7m T002 mini square:0.8-0.9m T004 large square:0.9-1.0m

RD001 RF DEACTIVATOR

Frequency:8.2MHz
Working Voltage:110V-240V
Unit Dimension:Decoding Board 24*24*1cm
Decoder 15*11*3cm
Decoding Speed:120/min
Deactivation Height:25cm
Width Of Sweeping Frequency:7.6MHz-9.0MHz
Color:Black
Packing Details:10pcs/ctn,13.5kgs/ctn,48*38*28cm

RD002 RF DEACTIVATOR

Frequency:8.2MHz
Working Voltage:DC18V
Unit Dimension:24*24*2.5cm
Deactivation Height:10-25cm
Color:Black
Packing Details:30pcs/ctn,35.0kgs/ctn,76*31*32cm

RD003 RF DEACTIVATOR

Frequency:8.2MHz
Working Voltage:110V-240V
Panel size: 29.5*24.5cm
Built-in size: 27.5*22.5cm
Deactivating Height: 10~15cm
Color:Black

RHD001 RF HANDHELD DETECTOR

Frequency:8.2MHz
Working Voltage:9V
Unit Dimension:37*8*3cm
Detection Range:10-15cm
Color:Black
Packing Details:1pc/ctn,0.3kg/ctn,39*9*4cm

EM
System

*T*he electromagnetic system uses electromagnetic radiation as the detection signal. In which the labels used with good price and small size. Can be deactivated/activated and repeatedly. It's very suitable for books, medicines and some special products. Popular in library, bookstores, video stores and so on.

Dragon guard your treasure.

ES001

It passed ISO9001:2008 international quality system certification from 2002 up to now.

Product Specification

- Solid wood and cristal glass combination design, flow linear shape, good transparent effect. And meets the requirement of the Standard of the Disabled Barrier Free Access.
- Applicant for books, pharmacy, cosmetics etc.Blending with surroundings,easy operation,low cost.with ability of anti electronic interference and resistance to aluminium foil block and tinfoil block.

Unit Dimension	148*54*4cm(H*W*D)
Working Voltage	110V-240V
Working Environment	-10℃-40℃
Material	Advanced-Resin-Glass+MDF
Detection	Height:170cm Width:80cm
Packing Details	1set/ctn,34.0kgs/ctn,151*62*18cm
Controller-Box Packing Details	1set/ctn,6.5kgs/ctn，43*33*32cm

ES002

It passed ISO9001:2008 international quality system certification from 2002 up to now.

Product Specification

- Solid wood and cristal glass combination design, flow linear shape, good transparent effect. And meets the requirement of the Standard of the Disabled Barrier Free Access.
- Applicant for books, pharmacy, cosmetics etc.Blending with surroundings,easy operation,low cost.with ability of anti electronic interference and resistance to aluminium foil block and tinfoil block.

Unit Dimension	145*62*4cm(H*W*D)
Working Voltage	110V-240V
Working Environment	-10℃-40℃
Material	Advanced-Resin-Glass+MDF
Detection	Height:170cm Width:80-100cm
Packing Details	1set/ctn,36.0kgs/ctn,150*70*30cm
Controller-Box Packing Details	1set/ctn,6.5kgs/ctn，43*33*32cm

Dragon guard your treasure.

ES003

It passed ISO9001:2008 international quality system certification from 2002 up to now.

Product Specification

- Adapting FRP material, anti-aging corrosion resistance, durable. And has a precise alarm and high detection rate.
- Can work with people counting, compatible with labels, green energy.
- with ability of anti electronic interference and resistance to aluminium foil block and tinfoil block.

Unit Dimension	152*44*3cm(H*W*D)
Working Voltage	110V-240V
Working Environment	-10℃-40℃
Material	Advanced-Resin-Glass
Detection	Height:170cm Width:80cm
Packing Details	1set/ctn,24.0kgs/ctn,158*50*18cm
Controller-Box Packing Details	1set/ctn,6.5kgs/ctn，43*33*32cm

ES008

It passed ISO9001:2008 international quality system certification from 2002 up to now.

Product Specification

- Pure acrylic carefully carved, crystal transparent, streamlined, and transparent effect.
- It has a precise alarm and high detection rate.
- Can work with people counting, compatible with labels, green energy
- with ability of anti electronic interference and resistance to aluminium foil block and tinfoil block.

| Unit Dimension	150*40*3cm(H*W*D)
